

# BU-32kWh-RU

## Battery Backup

This battery backup system has the ability to peak shave which can help reduce electricity costs by storing energy during low-demand periods and discharging it during peak hours when rates are higher.

This reduces demand charges, enhances energy efficiency, and provides full 50A at 240VAC backup power during outages, making it ideal for hydro customers looking to optimize energy use and lower utility bills

This is a full turnkey package which include installation and required ESA plan review.

### BU-32kWh-RU SYSTEM PACKAGE INCLUDES

- 1 RUIXU 12K Hybrid Inverter 45A Nom. 70A backup max
- 2 RUIXU LITH 12-16kWh Lithium Battery with built-in Transfer Switch
- 1 Pair, Inverter Cables
- 1 100A Sub Panel
- Miscellaneous hardware and electrical supplies

### WARRANTY

- 10 years on Inverters
- 10 years on Battery
